** Secure Security Services

OUR SERVICES

✓ Static & CCTV Security

This may involve manned services on access points, the guarding of equipment or valuables as part of loss prevention, crowd control, event security, scene securing, or personal protection, essentially anything requiring a person being onsite

✓ Event Security

A service provided by private security companies, perhaps in conjunction with local or national government operatives in order to deliver safe and secure events at various venues.

✓ Port Security

Port security is part of a broader definition concerning maritime security. It refers to the defense, law and treaty enforcement, and counterterrorism activities that fall within the port and maritime domain.

✓ Business Security

The term business security can refer to many different aspects of company protection. It may mean the physical security of the premises, especially against loss prevention, or it could refer to safeguarding computer systems against potential hackers who may try to steal company information.

✓ Railway Security

*Security is an essential part of safety, from **the physical protection of our infrastructure to the technology that safeguards our systems and information.** Security is everyone's responsibility; it is how we protect our railway from threat and dangers..*

✓ Dog Handlers

Dog handler security refers to having security professionals present who are specially trained to protect you, your business and your events in the most effective way through the means of searching people, vehicles and property with the help of highly trained security dogs.
